## Learning Objectives

**Instructions:**

Read instructions carefully.

1. **Begin with an action verb, include measurement, and be specific.**
2. Select one of the following commonly used action verbs, or an action verb from Bloom's Taxonomy to begin each objective: Compare, Define, Demonstrate, Describe, Develop, Discuss, Identify, or Recommend.
3. Include a numerical value in each objective (one, two, three, etc.)

**Guidance in writing well-developed objectives:**

- **IACET's articles exploring Bloom's Taxonomy**
- **Learning Outcomes**
- Sample: "Describe one or more differences between **best practice A and best practice B.**" Reasoning: *"Describe (action verb) one or more (numeric value) differences between best practice A and best practice B (specific)."*
